# Border Crossing with Horses

The border crossing into Switzerland requires temporary import documents for your horses. There are two ways of doing this:

## 1. With Carnet ATA:

- Apply for a Carnet ATA at your local Chamber of Commerce. We can also support you through our customs clearance partner.
- The carnet ATA can be opened when leaving the EU and entering Switzerland or at a domestic customs office in your area.
- Important: Your carnet ATA must be stamped at the border customs when entering or leaving Switzerland and the EU (at both customs declaration offices).
- Possibility of crossing the border at any time of the day or night if the custom is guarded.
- The Carnet ATA is valid 12 month.
- Costs for one Carnet ATA (also with several horses on it) opened for this show (not older than 6 month) will be refunded by us (max. Euro 200.-).

## 2. With a "customs free pass":

- The free pass must be applied for a few days before crossing the border with the person responsible below or from a customs agency of your choice. We offer you free processing with a free pass. Please fill out the online form on our website.
- You must leave the tournament on Monday morning to delete the free pass during office hours at the border through which you entered Switzerland. Border crossing on Sunday is not possible.
- This service is free for our international guests and paid by us.
